Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2154

This office action is in response to applicant's arguments filed on 09/06/07. Claims 1-6 are pending in this application.

Drawings

The drawings were received on 09/06/07. These drawings are placed in the file.

In regard to "Prior Art" label for fig 5-6, Applicant refers to fig 5 and 6 to discuss the disadvantage of the present UPnP network in the background of the invention. Examiner believes that those figures should be labeled "prior art" to ensure consistency with applicant's statement in the background of the invention. Accordingly, the objection is maintained.

Response to Arguments

Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.

In regard to the various entries made in IFW on 10/04/06 that do not pertain to this application, Examiner will do the necessary to have them remove.

Applicant argues that the invention concerns configuring a UPnP network. On page 5 of the remarks, applicant discussed the aspect of the invention and improvement that's being made. However, the claims as written do not reflect any aspect of the invention as discussed on the last two paragraphs of page 5. The claims are extremely broad.

The following rejection will be based on the invention as claimed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Kostic et al. hereinafter Kostic US patent application publication number 2004/0111494 A1.

As per claims 1-2, Kostic teaches a communication apparatus connected to a network (see fig 1) conformed to UPnP (Universal Plug and Play) (see par 0045), comprising an extraction unit that extracts IP addresses assigned to a device that provides a predetermined service via the network (par 0051 discusses solicitation message for retrieval or extraction purposes; par 0055 discusses retrieval of device description); and an IP address selecting unit that selects an IP address to be used for the predetermined service from the IP addresses extracted by said extraction unit (par 0051 discusses selection of IP address and par 0070-0073 discuss auto-IP addressing). See paragraphs 0025-0026 and 0177 and 0183 regarding multiple predetermined services.

As per claims 3-6, Kostic teaches image/video recording service and television receiver (see par 0025 and 0177).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
